

# Cybersecurity Assurance & Insurance Marketplace

The ERMIS marketplace platform will support the adoption and deployment of market-ready innovative cybersecurity solutions.

## OBJECTIVES

- Design, implement and deliver a TRL-7 and highly usable cybersecurity, certification and cyber insurance management marketplace
- Deliver market-ready tools for increasing the resilience and preparedness of SMEs against cyber threats
- Deliver market-ready tools, processes and models for the agile and verifiable certification of cyber systems, ensuring the conformity assessment and validation
- Deliver an innovative framework supporting the creation and management of cyber insurance policies and offering a sound liability basis for establishing trust in cyber systems and services
- Validate the ERMIS offerings in real world environments and business cases for improving cybersecurity assurance capabilities in the EU and enhancing cyber insurance management
- Raise awareness on the innovative ERMIS results to business, research, academic, and open-source communities in the EU and empower their skills in addressing ongoing cybersecurity challenges.

## PROJECT TEAM

The project received funding under Grant Agreement No 101128013, and is supported by the European Cybersecurity Competence Centre
